

OBSCURA XP

MULTI-MISSION CAMERA

Real-Time Situational Awareness & Actionable Intelligence

Body-worn POV | Surveillance Operations | Modular Mounting Options

Obscura XP Multi-Mission Camera is a ruggedized (IP66), miniature HD IP Camera capable of streaming and/or optionally recording high-resolution 3.1MP video and audio in day-light or low-light environments. With an 85° field of view, built-in infrared illuminator, on-board microphone & SD card, and modular mounting options, Obscura XP provides flexibility for use in body-worn, concealment or remote surveillance operations.

Natively compatible with all StreamCaster 4000 series MANET radios, the Obscura XP features an intuitive web-interface, allowing users to access video downlink and customize image quality, camera settings and video capture parameters.
