

Keeping you connected to the latest Silvus news, events, collaborations and product innovations.

In case you missed it, the StreamScape 5 Firmware Update webinar video is now available for On Demand viewing on the Silvus Customer Support Portal.

Webinar Topics Covered:

- The StreamScape 5 GUI – How to take full advantage of the latest improvements
- Introduction to New Features – A deeper dive into performance improvements, access to new Spectrum Dominance capabilities, and security enhancements
- A Walkthrough from Download to Installation – Where to access the StreamScape 5 firmware update, how to download it, and where to find support for technical issues
- Compatibility - How to maintain interoperability, and how Silvus can help ensure ease of transition for a successful changeover

Have questions not covered in the webinar? Need help with launching StreamScape 5, or logging on to the Customer Support Portal? We're here to help. Contact support@silvustechnologies.com.

ConnectU 2024 Basic Operator Training

ConnectU 2024 is a wrap! We'd like to send a big thanks to our agency partner Henrico County PD for hosting an amazing event. Over the course of three days, participants from Law Enforcement and Public Safety agencies across the U.S. gained best practices for harnessing the full power of StreamCaster MANET radios and MN-MIMO waveform – to create a Tactical Bubble mesh network that seamlessly integrates with the latest tactical tech to advance their operational capabilities. Connect with the [Law Enforcement Sales Team](#) to learn more, or express interest in your agency participating in the next ConnectU.

WATCH THE VIDEO

We're thrilled to unveil the all-new Silvus Technologies Waveform Blog - Gain insight into the latest technology, trends and innovations that are reshaping mesh network technology for mission-critical applications.

Featured Partner - Aerostar

“Aerostar’s Thunderhead balloons navigate and hold station for weeks in the Stratosphere – supporting wildland firefighters, restoring cellular data to victims of natural disasters, and providing battlefield support to our service members. For us, Silvus radios “just work!” Whether strapped to a balloon at 75,000 feet and at -60°C, or extending range out to 300 miles and beyond, they keep going! Silvus radios are vital to Aerostar’s mission to Connect, Protect, and Save Lives”

Russ Van Der Werff
Vice President of Stratospheric Solutions, Aerostar

This quarter we're proud to recognize Aerostar as our Featured Partner - a world leader in stratospheric platforms and airships. Together, with StreamCaster MANET radios and MN-MIMO waveform, we're pushing the envelope of multi-domain operational capabilities for First Responders, Public Safety, and Defense Agencies.
