DIGNITARY PROTECTION

Silvus Tactical Mesh Networks are ideal for when:

- Cellular infrastructure is overwhelmed
- LMR and/or cell networks are damaged
- No existing Comm Infrastructure

Silvus solves problems with:

- Aviation video uplinks / downlinks
- Tactical Bubbles
- Tactical PTZ Video
- ATAK deployments
- ROIP Bridge to LMR radios
- Blue on Blue interference Resilience
- C2 ISR Robotic Systems (including Tunnels!)
- Drone Interoperability Kits
- SEAR events
- Disaster response

To discuss your agency's challenges and how Silvus can address them for you, contact our team at:
